AUTOPLAY PC/Windows (Updated 2022)

If you were planning to make a CD or DVD for your clients, business, or hobby, but didn't have the time to figure out how to use the built-in AutoPlay command, then you're in luck! AUTOPLAY helps you create a clean, professional program that will do all of your work for you! This small program has just the AutoPlay controls you need to do what you need. You can choose which programs will start when your user plays a CD or DVD, and even define additional criteria if you want! You can even prompt your users to press the "stop" button after they have played a certain number of tracks, and the program will remember their choices and continue to look for the next match in the list. Key Features: * In-depth help file on every dialog box * Very simple to use (just drag and drop actions to perform) * Dialog boxes are clearly labeled * Dialog box actions are clearly labeled * Works with almost any CD and DVD drive (including the CD and DVD drives built into your computer) * Automatically selects whether to prompt your users to press "Stop" when they reach the end of your program * Supports for various file types that are commonly used in the field * Ability to pause or stop the music as well as exit the program * Will prompt your users to exit the program when they click on the "Stop" button * Searches for your CD/DVD at the beginning of the CD/DVD, the CD title, or the CD/DVD track * Will also match the CD/DVD title to its corresponding folder (if it exists) * Easy to use keyboard shortcuts for your dialog boxes (just see the help file for more information) * Timing can be limited for each title found (see the help file) * Will run as an administrator * User-friendly, simple-to-use interface * Runs within the System Tray * You do not need to register the program to use it, but you can if you'd like * Can be built in to your CD and DVD creator programs * You can choose to be notified when the program starts or quits by email * You can set the program to launch when the computer starts up, and as well as when your client logs into the computer If you were planning to make a CD or DVD for your clients, business, or hobby, but didn't have the time to figure out how

What's New In?

AUTOPLAY allows you to automatically play and skip all tracks from selected audio CDs or DVDs with a few simple clicks of the mouse. You can also choose to play all movies on the DVD. These videos can either be your own, imported, or automatically pulled from the Internet. In addition to generating the AutoPlay frames for you, AUTOPLAY can also monitor your music CDs and DVDs and create a similar AutoPlay slideshow for selected tracks from those CDs. Features: Automatically play and skip all tracks from selected CD's and DVDs Automatically play all movies from DVDs (w/ option to select all movies on DVD if you like) Automatically skip tracks you don't want to play Automatically skip discs you don't want to play Automatically play a track when you insert a disc Automatically play a movie when you insert a DVD Automatically skip a movie you don't want to play Automatically play a DVD when you insert a disc Automatically skip a DVD you don't want to play Choose which frame you want to play Quickly choose the frame of the video that you want to play in Remove the frame from play Quickly delete the frame from play New Audio and Video Frames: In addition to the two built-in options above, you can create your own audio and video frames. Simply create a standard *.gif image, paste it into the frame you want to create, select the frames in the AUTOPLAY menu and choose the ones that you want to use. Customize the Frame Display You can customize the frame display in Autoplay by choosing which CD and/or DVD you want to play from the CD/DVD drives. When you change the frame selection, the CDs/DVDs listed there will all be automatically played. Sort the CD/DVD Drive List: You can specify the CD/DVD drive order that the AUTOPLAY program displays in the Main Window. Simply click on the "CD Drive list" tab, and click the radio buttons at the bottom of the window to choose the drives you want AUTOPLAY to monitor and display.
