## Network Status Check [32/64bit]

Network Status Check is a simple application that can help you to check your Internet connection in order to fix the problem. You will see a window that allows you to: - Test if the Internet connection works correctly - Get information about the connected network and subnet mask - Check if the IP address is shown properly - Find out your router model, as well as wireless adapter and driver versions. The official Chromecast app is the only Google app that has full access to all of your Chromecast content, giving you the tools to access them, add them to your media player, and cast them from your Android phone or tablet. Access your Chromecast content in one place and add it to your media player, with fast search and access to your favorite apps. Play content from Netflix, YouTube, Google Play Movies & TV, Amazon Instant Video, HBO GO, VUDU, Plex, MLB.tv, iTunes, and more. How does it work? The Chromecast app lets you find your Chromecast device and adds your media player to the list of compatible devices, so you can cast just about anything. It also gives you access to any media that's stored on your device through Fast Search. Cast any content to your Chromecast device from your Android phone or tablet – and browse your media collections easily, because the list shows your available storage – the same place you find your media player in Google Play Music. You can also search for a specific movie, TV show, or book, so it's easy to find what you're looking for. Use Fast Search to find your content quickly, and then add it to your media player by casting it from your phone. Play content from the Google Play store, including your own purchased media, from your Android device. Get fast access to your favorite apps like Netflix, YouTube, Amazon Instant Video, and more, right on your Android device. Get instant access to your Google Play media. Your purchases and videos from Google Play are available directly on your Android device, so you can watch what you want, where you want. Everything in your Google Play library is on your device – photos, music, videos, and apps – available for you to play, search, and share. And with Android Auto, you can use your phone to control the playback and navigation of your Google Play media – so you can enjoy it while driving. In your Google account, you can use the Chromecast app to cast your Google Play

### What's New in the Network Status Check?

'Network Status Check' is an application created with the intent of providing a simple

---

interface for checking if particular ports for accessing specific websites are open.
