System Requirements:

Setup Important Note: It is highly recommended to use the latest DirectX supported version for best performance. Due to the nature of the Windows API, creating the program

requires Administrator privileges. The program will not run without this. Please follow the installation instructions carefully to avoid these issues. Please note that the program is best run in the Windows 7 OS. Any

change to this OS may make the program run slowly or may cause other unforeseen issues. 1. Click the download link below to the program and save the file in your PC
