you three options: to install Mouse Control, to uninstall it, or to view help. Mouse Control Help is a bare-bones help file that allows you to find out how to use Mouse Control. "Mouse Control is a great program that lets you control a computer from your desktop, allowing you to view the mouse cursor, change the desktop background, start or stop programs, and more. It's a great feature when you need to contact someone (or when you're trying to help someone remotely)..." (Software Distributor) "Mouse Control is a freeware utility that lets you control any computer on your local network from your computer. You can view the mouse cursor, bring up the desktop window, change the desktop background, or take screenshots." "Mouse Control is one of the most versatile free remote control software I've ever used. It has many features that are not common to other remote control software.... Aside from giving you the ability to access your computer remotely, Mouse Control has many other features. You can take screenshots of the remote computer screen, or record the remote computer screen to a file on your computer." (CNET Recommended: Remote Control Software) "Mouse Control is a program designed to allow you to remotely control a computer from another computer or even from a desktop... Mouse Control is very easy to use and well-suited for new users... Mouse Control will allow you to see the cursor, take screenshots, and even remotely control a computer or server." (PCMag Editors' Choice Award Winner: Remote Control Software) "Mouse Control is great for novice and expert alike.... Mouse Control will operate on multiple platforms including Windows 95, 98, and NT and any version of Windows 2000, XP, 2003
