"Ace genre of various fantasy RPGs combined for a smooth multiplayer RPG where the characters are connected." 3 4.6/5 - Kasia "What could be more interesting than to explore the world once again in a new way with a new story and new characters?" 3.5 4/5 - Solaris "An epic online RPG that is filled with surprises." 3.5 4/5 - LucidTuesday, March 17, 2013 So, I had to wait on a new release from my publisher, Motivational Press, to see a couple of chapters of this book completed. I finally got to flip through a few pages, and it is the most beautiful creation I have seen so far. The type of typeface used is dazzling, and the color scheme is that of a rainbow of colors. But, I could not get a feel for the overall theme or concept for the book. When I pulled it off the desk to review, that is when I started to have a greater appreciation for the author's writing. I was so taken back at the moment, as I was reading only a couple of pages, and I was knocked out. I felt that it was something that had been communicated to me without words. It was something that told me what it wanted to say. I was totally taken back by how powerful it was, and how it made me think. It made me stop and think about how I would write a book, and how it should be

written. It made me think about how valuable the book is to other writers, and to those who want to read, but are afraid to pick up a book on writing. "Writing is Not Easy" should be required reading. Not just for authors, but for everyone. It is a book that was written on a personal level, that will be appreciated by anyone. [Read More Here](#): Wednesday, March 11, 2013 As I was preparing for this release from Motivational Press, I started thinking about how authors are really not successful in their writing careers. Many have tried, and not succeeded. They call it a success that they've made a dime, or that they've changed careers, or that they haven't lost

Your time is one of the most precious resources you have. It's not just about waiting to see the schedule and how many hours you need to put into that project, but the hours lost due to context switching. The fact that our day job is not work-only has added even more pressure to our creative and independent processes. To reduce the amount of time it takes to create a game or application, reducing the amount of tasks involved.
