## **What's new in Fifa 22:**

- **Pitch Replays:** Make the most of your offensive set-pieces in the brand-new Pitch Replays system. With just one button, you can force an on-pitch goal, set-up an assist, or redeem an outfield free kick.
- **Commitments:** You now have more incentives to commit on-pitch actions and off-pitch stats. Managing your player's statistics and appearances in the Commitment System now takes place automatically with less manual input.
- **Fan's Choice Game:** Autolog is back in FIFA 22. Now play the game that earns more points for you!
- **Instagib:** Tactical instructions help you perform decisive dribbles on the ball, as you activate a Rivaldo-like Instagib to evade an opponent, hit a precise pass that enables a teammate to score a goal, and freeze an on-pitch opponent and make a goal-scoring run.
- **Improve Player Tracking:** You can now track multiple opponents, while moving between Real Player Motion and Standing player models. The improved player tracking offers next-gen-like player tracking for sustained tracking or fast-paced shooting.
- **Revert Trip count in stats:** Tackle animations will now reset every time a player trips or falls to the ground and not just once per game.
- **Goal Line Hold:** The Goal Line Hold will not allow for off-ball runs behind the line of a free-kick with no player between you and the line.
- **Improve Match Conditions:** Very high pressure in today's modern football, hence EA has significantly improved the match conditions in FIFA 22. The improved match conditions show more skin animations and improved player and ball animations. The stadium turf and pitch have also been improved.
- **Rebuild Stadiums:** One of the most popular stadiums is now available for all user-created teams: Man United's Old Trafford.
- **FIFA 22 IconX:** FIFA 22 introduces the most complete set of IconX's in all sports video games.
