The present invention relates to a combined impact and shearing machine in which the two components of the machine are movable relative to each other, and which comprise a shear frame and a longitudinal carrier housing which is connected to the shear frame through at least one hydraulic cylinder, wherein the longitudinal carrier housing is mounted on the shear frame so that it can be moved towards the shear frame or away from it. The shear frame and the longitudinal carrier housing are movable relative to each other in a plane which is orthogonal to the direction of movement of the machine. In addition, the longitudinal carrier housing is mounted so that it can be displaced longitudinally with respect to the shear frame. Such a combined impact and shearing machine is known from WO 02/45377 A1. In that case, a frame which is common to a shearing machine and to an impact machine is connected to the main frame of the shearing machine through a piston. In that case, the hydraulic cylinder used for the operation of the impact machine is also used for the longitudinally displacing the longitudinal carrier housing and is connected between the frame of the impact machine and the frame which carries the longitudinal carrier housing. In that case, the fact that the cylinder of the impact machine is also used for displacing the longitudinal carrier housing entails that,

FIFA is the world's most popular sports video game franchise, available on a range of platforms and marketed under many different brands. **FIFA** is a licensed game developed by Electronic Arts Canada that simulates association football, or soccer, and is a compilation of a series of football-management simulations known as "Football Manager" developed by Sports Interactive and other

subsidiaries. FIFA games are released in the third year of a new "world" and after a set period of time. A new "world" can last anywhere from 2-4 years depending on the game. The last game to be released in the "World Series" was FIFA 14 on the Xbox 360 on 10 October 2013. There are currently 3 games that are available for the Xbox One: FIFA 15, FIFA 15 Ultimate Team and FIFA 17. For each game, a team must be built from scratch within a year. Currently, the teams are built using the method of "best youngsters under 25". The most recent game to be released is FIFA 17 and launched on PlayStation 4, Xbox One and PC on 9 September 2016. What happens after the World Series? After the World Series has ended and the "World Series" has been completed, the new "World" is ready for play. The players in the most recent "World Series" will be placed in the new "World" and the previous "World" will disappear. The new "World" will begin with 2 years of new gameplay. In addition, every year before the World Series starts, there is a new "Leagues", "Competitions" or "Tournaments". There is also a variety of new items, such as kits, training sets, pitches and commentators. For example: World Series 18 From FIFA 15, FIFA 16, FIFA 17, FIFA 18 and FIFA 19, the squad of experienced football managers in the "World Series" play a big part in the new challenge facing them. Thus, it will be new players who make the effort and develop their football skills. The new "World Series" begins in the new "World". The new "World Series" starts from here. A new team must be built and there are new scenarios that a manager must face. FIFA "World Series" 2018 - Clue The FIFA "World Series" is in the new "World" and the new "World" will begin to
