### **What's New In Foxit Studio Photo?**

Watermark PIXEL EDGE This is the first digital

---

graphics software that makes it possible to create gorgeous and marvelous watermark on your images. Now you can conceal and remove the logo from the image and also add your own signature. It is entirely up to you which logo or a unique image to create. The Watermark PIXEL EDGE offers an advanced watermark solution without any limitations to change the watermark text, shapes, colors, etc. Illustrator? Draw? Doodle? Pixel? Create beautiful images with what your imagination offers. Pixel will be your assistant. It's fun and easy. Then add even more fun to it with the SpectraLayers feature. Create your own vector art. Turn ordinary photos into beautiful pieces. Draw a picture and let pixel do the rest. Create tutorials with cartoons and drawings. And produce photo gifts in more ways than ever before. What is it?: Watermark PIXEL EDGE has an intuitive layout where you can draw watermarks like a true artist. Simply select a shape with the use of Magic Wand Tool. You can easily place the watermark wherever you wish on the image. Want to write text on the image? With the use of the text tool, you can add any text you like without worrying about misspelling. To highlight the text you can use an outline color. Show off your talent and create photo animations that you can share with others. Just tap the animation tab. Select a piece of your art, like a photo, and with the use of

---

a slider, you'll be able to add more frames to it. Create your own comics or cartoons, and make your favorite characters tell jokes. Create comic strips and draw cartoons on the pictures of your friends and families. Create those tutorial videos you've always wanted to make. Pixel help you draw. And will stand as your best assistant. Have fun and create whatever you want using the SpectraLayers feature. What's great about this feature is that you can easily create your own layers. How to use: Pixel comes with some pre-made layers so you can start your image creation process right away. When you're ready to put your own stamp on images, then you can start drawing, painting, or writing on them. Simply drag and drop your pictures into the.pixelslayers folder and you're good to go.

## System Requirements:

Recommended: We recommended this game on our Steam blog a while back, so we will not repeat ourselves here, but the game has been getting rave reviews ever since it was released and it's running great for all Steam players. If you haven't gotten a chance to check it out yet, definitely do. It's an amazing game and just as PC gamers are about to start dropping \$15 on this huge game, XSEED is offering it for PC at a reduced price of \$9.99. PC Graphics: I
