Kryptos - The Amazonian Escape Kryptos - The Amazonian Escape Come on – there is no denying that a lot of time and money has been invested by the Amazonia program to help increase the biological diversity of Bolivia. It's an idea that few are complaining about – but what if the Amazonia program has missed the mark? Why? Because the majority of how the Amazonia program has been implemented, looks like a … The entire episode premiered in prime-time – October 2, 2015, on the American Broadcasting Company (ABC), which was the evening line-up's top-rated show. It also aired later in the season in Sunday night timeslots. Episode synopsis Kryptos has been a carefully guarded secret for as long as Men in Black has existed. A team of top scientists was put together to find out what it's all about. They started with the brain of an alien, but a bigger problem arose when his corpse was stolen from the planet. Now, secret agent Jay and the MIB team have to track the alien down before his body is returned to his home planet. You can see a clip from the episode below: Under review Storyline: The whole storyline in this episode seems a bit of an uphill battle, at least from where the television viewer stands. Set in a freaky scenario, the story has no proper motivations other than for the audience to follow along. You can only say that Jay is working the rest of his career as if he is following after his 'old friend'. What is left for us to do – but to follow Jay as he does his paperwork while dodging the 'mischief'. The problem with this is that we are just part of a crowd who cannot really appreciate the significance of this adventure. The story is gripping, a bit thrilling – but at the same time it can seem a little short on substance. Another problem is that we are required to follow along with Jay and his investigation, or risk having a major fiasco on our hands. This does not make for an enticing story – especially when the mysterious and important pictures that Jay is investigating have had less than desirable effects on his mind. This maybe explains why the story does not seem to be in any real jeopardy – because the plot is not written in a way that it will create a conflict
