Download the registration code from [1]. Extract the zip file and copy the file "Autocad.reg" from the extracted folder to the file "Software\Autodesk\Autocad\RegKey\_US". This can be found in the "Windows" section of the main folder. Restart Autocad and Enter the registration code to activate your license. If you try to start a project in Autocad, it will ask you for a registration code. Enter the registration code from [1] into the box. If you want to activate your Autocad ID on multiple computers, you will have to download the registration code for each computer from [1] and put it into the "Software\Autodesk\Autocad\RegKey\_US" file on each computer. [1]: What's this for? This is a normal registration code, which is used to activate the Autocad ID. If you want to activate your Autocad ID on multiple computers, you can place the file "Software\Autodesk\Autocad\RegKey\_US" on each computer and use the registration code from [1] to activate the Autocad ID. The world's largest drugmaker Johnson & Johnson last week announced that it is putting a halt to production and shipments of its namesake baby powder for fear that it may be harmful to children, NPR reported. For those who have never heard of baby powder, it is a white, talc-based substance that manufacturers claim to be harmless. It is an inexpensive product that is commonly used to help babies breath, and is often marketed as the choice for diaper rash. According to The New York Times, Johnson & Johnson itself stated in a consumer magazine: "Our products are meant to be used by a wide range of consumers," the company said in the consumer magazine InStyle. "We're confident in the safety of the products we sell." In a letter to Johnson & Johnson CEO Alex Gorsky, the nonprofit Campaign for Safe Cosmetics stated, "The dangers of talcum powder have been a troubling secret for decades. Your company has known about these problems for decades yet has done nothing to prevent further deaths and illnesses." As the number of baby powder users continues to increase, however, new
