I have a girlfriend that has a really bad taste for sex and she is a total pain in the ass to talk to when it comes to it. I've tried a few times but I just end up leaving feeling completely disgusted. I don't know if I'm sexually or emotionally repressed but I'd really like to know how to get it up with a girl and express myself without having to be a beggin. I'm not looking for a one night stand but if there is something there then I'd like to know what to do. Sex is where you should be expressing yourself. You might want to consider seeing a sex therapist. There are therapists who specialize in sex therapy. There are non-judgmental sex therapists that will help you get over that guilt and figure out what to do with your vagina or penis without feelings of guilt or shame. I'm all for trying different things without judgment, but I'd advise you to go to a sex therapist to really get through this. Stay away from sex with anyone until you've seen a therapist to help you figure out your sexual boundaries. Then keep to those boundaries. Then find a girl who doesn't try to put you down when you're having sex. I'm all for trying different things without judgment, but I'd advise you to go to a sex therapist to really get through this. Stay away from sex with anyone until you've seen a therapist to help you figure out your sexual 6d1f23a050
