Album Zip.Q: Matching a string that comes after a certain character Within the string: \$str = 'a'; How do I get the part of the string that comes after "a" and before the next character. So I want the string: \$result = 'a';

Is there any regex that will do this? A: \$str = 'a'; \$str\_start = strtolower(\$str). 'a'; \$string\_after = substr(\$str, strlen(\$str) + 1); A:

Because PHP has autoloading, you don't need to require the file manually, and your path is likely to be more robust as well. This would require no recursion (assuming there is no second 'a'): Numerical and Experimental Study of the Fermi Velocity and the Thermal Energy of Peierls Phonons in Optically Induced Superconductor YBa<sub>2</sub>Cu<sub>3</sub>O<sub>6.64</sub>. We report a numerical study of the vibrational properties of phase slips in the recently discovered superconductor YBa<sub>2</sub>Cu<sub>3</sub>O<sub>6.64</sub> and provide a link between the calculated phonon dispersion curves and the electrical resistivity in the normal state. In the Peierls superconducting phase, we quantify the thermal energy of phonons, and we find a qualitative agreement with experiments in good samples. Finally, we demonstrate that the Peierls mechanism is instrumental in the plastic electrical behavior of this compound, and we identify the relevant parameter range of the reversible current density. Global analysis of 6d1f23a050
