

Catia V5R19 SP2 W32: errore ScriptingERR_1004 ... a great tool for learning, exploring topics, and also unraveling the tangles inherent in CATIA. That's why this topic. I would like to know if there is any solution for this. I think I can try uninstalling/reinstalling Catia but that seems like a pretty big step for this tool which seems to work pretty well. Also, it doesn't use W32 (W32Amp). Does anyone know any solution? I have tried some solutions online but most of the options don't seem to work. I have searched everywhere but cannot find it. (I'm new to CATIA)
