The AutoCAD Product Design Team is gathering a collection of screenshots to broaden our view of our customers work environment. We are looking for a screenshot that best captures your normal toolbar arrangement, palette setup, dashboard position, etc. We will use these screenshots to aid our design decisions concerning the user interface of AutoCAD and any other Autodesk products. As a participant in this project, we ask you to email us your country and product name. Then, take a screenshot... Read more As the developer of Autodesk® AutoCAD® and AutoCAD LT, the most widely used cross-platform CAD software for architects, engineers, and drafters, I suspect we all agree that the software continues to be one of the best. AutoCAD LT® is being adopted by architects worldwide because it is easier to learn and use. It is also faster and more responsive than any other design software available. The recently added Page Set feature is another differentiating AutoCAD LT factor that makes it uniquely suited for architects and engineers. This is a change from one or two previous version, where there were no page layouts. The page layout feature is a great feature for architects, designers, and many other users. AutoCAD 2009 64 bit edition allows the user to create a relatively simple project file for a design by using a survey tool; working on design projects in which there are a high number of windows or you wish to keep the background gray; and working with multiple projects at one time (multiple project files). A new feature that is available in AutoCAD 2009 64 bit edition is the ability to use the existing drawings into the AutoCAD DWG file. These drawings can be transferred into a AutoCAD DWG file using the File-to-DWG (F2D) command, which can be found on the File menu. The F2D command is available to many AutoCAD...
