
Call Of Duty Black Ops Sound Fix Version 1.0.rar [LINK]

the game is played in first person with a gun, and the environment is sometimes very dark, made up of rooms, hallways and staircases. the crosshairs show where you shoot, and the three bullets are, left, center, right. you cannot reload, and there is only one slot for ammunition, which means your ammo is constantly low. you have only three weapons. a shotgun, a machine gun and a pistol. and the shooter is running and jumping to get the three bullets of the weapon. he is allowed to do this, but the bullets have to be the normal, center, and right. each bullet has a different purpose. the center bullet can be used to kill zombies, but if he shoots an object or another player, the game ends. the right bullet is used to run, jump and crouch. you can get weapons from a safe, to a helicopter, to anything that someone might have dropped. everytime you shoot a gun, it will be empty and you will have to go to the ammo machine to refill it. you can only see your weapon, and the ammo, but you can see the crosshairs if you look down. the zombies will come, but they are not out there to hurt you, they are coming to eat your brains. when they come down the stairs, they have three health bars. they can knock you down, and you cannot see them, so watch where you are going. when your health bar is three, a soldier will appear. there are three levels, and you will have to get to them first. to get to the top, you can use the right bullet, if you hit the player, you will go up to the next level. as it says in the title, zombies is where the fun is. if you want to have some fun with your friends, you can play together in your multiplayer, which is great. in multiplayer, you can play with up to 16 people on your team, or you can play with 4 in a "firefight", which is a smaller game mode where the teams fight zombies in 1 of 5 predetermined areas, and score points and earn xp, until the area is cleared.
