He asks what hes doing. Chester says hes waiting forJoker and asks if hes going to be a tough prisoner. Joker says that hes going to be a tough customer. He says that hes got mad skills. Joker then explains that he's going to be fighting with his spoon. He sings Im Fighting With A Spoon and asks Chester if hes still in charge of the whole prison. He chants in his head I see a bossfight, he continues singing Im Playing With Her Nightmares. He's in a library. He sees a guy with a computer who is wearing an Assassin's Creed robe while he is listening to some music on headphones. And Joker breaks the computer and gets in his face.

there are a lot of issues with the way that this version of the joker is depicted in the film. it doesnt really play into the fans view of the character. he doesnt have any of the charm that he had in the source material. this character is portrayed as a crazy person who is manipulating people. the joker is portrayed in this version as a supervillain who is a psychopath. that is a very bad way to portray the joker. in the comics and other versions of the character, there is a very dark and twisted side to the joker and he wants to destroy society. he wants to destroy the system of law. he wants to be the villain and to be the top of the pile. the joker is among a select group of characters in cinematic history that has the ability to create character-driven stories with a compelling arc. no matter how i felt about the joker at the end of the film, i always wanted to know more about him. when he was introduced as the joker, he was a sociopath. but by the end, he was a hero, and it was a thrilling ride. this was one of the best examples of character arc ive ever seen. i was truly invested in understanding what drove the joker to begin with. at the same time, i was drawn in by the joker himself. he was a fascinating character. every time he was on the screen, i was entranced. a big part of the movie's success was how well it portrayed the kind of city gotham is in the dark knight. it was a more stylized version of the city than we've seen in other batman movies. there was no need to show us the citi bank because we know what its like to use it. we saw the dingy tenements, the shady prostitutes, the rundown hotels and the seedy street vendors. 5ec8ef588b
